Nutrition from the Sea

All the nutritional supplements we offer are Made In Canada. This ensures that they meet Canadian standards of safety and quality of efficacy, some of the most rigid standards found in the world.

Wild Salmon Oil 1000 mg Softgels

West Coast Select 100% Wild Salmon Oil contains more than 90% Wild Sockeye Salmon Oil, with the remainder being other Wild Salmon Oils.

Thousands of studies show the benefits of Omega-3 Fatty Acids for the heart and circulatory system. Two important Omega-3 Fatty Acids are eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), both found liberally in cold water fish such as salmon. These fatty acids help reduce low density lipoproteins (LDLs) and raise levels of good high density lipoproteins (HDLs). These nutrients also reduce blood vessel constriction, lower fibrinogen, (the blood clotting factor), and keep platelets from becoming too sticky. Sockeye Salmon Oil contains the highest source of alpha carotenoids available from any food source.

Cod Liver Oil 1000 mg Softgels

Cod Liver Oil is an excellent source of both Vitamin A and Vitamin D. Vitamin A is a fat-soluble vitamin, known to promote healing by stimulating the immune system. It benefits the eyes as well as soft tissue. Vitamin D, the sunshine vitamin, is also fat-soluble and acts as a hormone to assist the body's absorption and utilization of calcium. It helps bones and teeth, stabilizes the nervous system and helps the cardiovascular system, muscles and many body organs.

Our Cod Liver Oil uses advanced processing methods to protect the purity of our product while ensuring that there is no heavy metal or chemical contamination.

Pure Krill Oil 500 mg Softgels

Krill Oil provides essential Omega-3's and unrivaled levels of antioxidants.

Benefits attributed to Krill Oil include reduced risk and improved treatment outcomes from cardiovascular disease and inflammatory joint diseases. Additional benefits include better brain and central nervous system development, improved cognitive functioning and improved skin health.

And it's the first Krill Oil certified sustainable by the Marine Stewardship Council (MSC), which mandates independent monitors on the harvest ships.

Women's Omega-3 1000 mg Softgels

Unsaturated essential fatty acids (EFAs) are vital to circulation, hemoglobin production, healthy skin, prostaglandin synthesis, brain development, immune function and anti-inflammatory response in the body.

Women's Omega-3 Multi combines Norwegian Cod Liver Oil and Flaxseed Oil to provide a balanced ratio of Omega-3, Omega-6 and Omega-9 for optimum health. All the oils are extracted without solvents and contain no artificial preservatives.

- Vital to circulation
- Promotes good hormones and maintains healthy skin
- Helps immune function

North Sea Kelp 500 mg Tablets

North Seal Kelp comes from the North Sea of the Atlantic Ocean. People who have grown up near the ocean appreciate the value and richness found in sea kelp.

North Sea Kelp is a sea vegetable that is a concentrated source of important minerals, particularly iodine, potassium, calcium and magnesium, as well as many trace minerals. Kelp is a good source of iodine, essential for proper thyroid function that helps to regulate the body's metabolism. By boosting thyroid function, kelp contributes to the body's ability to burn fat.

- Thyroid support and a source of naturally-occurring iodine
- Supplies vitamins, minerals and trace minerals in natural ratios

Krill Marine Blend 500 mg Softgels

Krill Marine Blend combines the beneficial properties of Krill Oil, Wild Salmon Oil, and Cod Liver Oil.

Our Krill Marine Blend provides good sources of Omega-3 oils. EPA is especially useful for arthritis joint pain, while DHA can restore brain cell membrane surfaces, helpful for memory, learning and other nerve cell communication. EPA and DHA do not require further metabolism, therefore they are ready for your body to put them to work.

- Reduces joint pain and inflammation
- Brain, memory and learning support
- Helps maintain healthy cholesterol levels
- Excellent for eye and nerve health
